WORK EXPERIENCE:

Kantar Analytics Practice Software developer

11/2019 - Present,

Experience

- 3 years

PROJECTS:

AQ Internal App

- In this project, we develop a platform where all the internal project details/status are maintained by the team managers.
- My role was to develop user management page with three types of user type with different permissions to access.

Dynamo

- In this Project, user can simulate, compare, forecast the investment and market status of all their brands.
- My role was to build a simulation page module interface where user can simulate between different brands and implemented excel export of that module using EPPlus library and also implemented sso login using Msal library with AzureAD.

Advantage

- This is Unilever Project, where they can optimize the future expenses in different ways.
- My role was to develop responsive screen view of all modules and export of data to excel and also to avoid some testing issues i merged form based login and AzureAd sso login using JWT Tokens.

HDS

- In this Project we have survey data and we are showing to user those data in different aspects as per requirement.
- My role is to design 15 different type of custom and reusable charts to represent data to user. I also develop dynamic multilevel selection options.
